

New Balance Fresh Foam Cremorne BOA

New Balance Fresh Foam Cremorne introduces Fresh Foam midsole technology into safety shoes, merging high end performance R&D into the industrial footwear space for the first time. Ant-static, composite toe and slip and heat resistant outsole, ensures Fresh Foam Cremorne meets the comfort, fit and protection a long days work deserves. New Balance FRESH FOAM performance midsole technology ensures uncompromised support, cushioning and flexibility. Providing a modern and light go-to option for those wanting long-lasting durability in their work shoes, while not compromising on comfort and style. COMFORT WHILE YOU WORK

Our unique anti-perforation is made from one of the three major high performance fibers in the world with strength ten times greater than that of high-quality steel and density lower than water. This anti-perforation delivers a soft, water resistant matter with excellent abrasion and flexing resistance.

Toe Protect

- ➞ Reinforced toe tip designed to help protect the toes.

Slip Resistant

- ➞ The outsole is designed with a unique tread pattern that can better grip wet, slick or oily floors.

FRESH FOAM

- ➞ Engineered for precision comfort, Fresh Foam provides an ultra-cushioned and lightweight ride.

HEAT RESISTANCE

- ➞ The outsole is heat resistant to very high temperatures (up to at least 300°C for 60 seconds).

BOA

- ➞ The BOA® Fit System delivers micro-adjustable precision fit, engineered to perform in the toughest conditions.
